

## **Andrew J. Henry, P.Eng.**

Director, Regional Water Supply  
Lake Huron & Elgin Area Primary Water Supply Systems

Andrew graduated from the University of Windsor in Windsor, Ontario in 1991 with an Honours Degree in Civil and Environmental Engineering, and is a registered Professional Engineer since 1993.

Andrew is currently the Director of Regional Water for the Lake Huron & Elgin Area Water Supply Systems in the greater London region of southwestern Ontario. Andrew has worked in consulting and throughout the municipal sector, including the City of Etobicoke, the City of Chilliwack in British Columbia, and the City of London.

Andrew has been involved in numerous provincially significant initiatives, including the development of the Drinking Water Quality Management Standard, F.C.M. Best Practices, and various provincial design standards and manuals. Andrew continues to participate on various senior government advisory committees and work groups related to the municipal water systems, source water protection, Great Lakes preservation, emergency management and critical infrastructure assurance, asset management, and First Nations.

Andrew is currently on the Board of Directors for the Walkerton Clean Water Centre, as well as a member of the Lake Erie Source Protection Committee and the Co-Chair of the Ontario Water/Wastewater Agency Response Network. Andrew was previously on the Board of Directors for the Ontario Municipal Water Association including being its Past-President of the OMWA following a three-year term as President and Chairman of the Board, as well as the province's Operating Authority Accreditation Management Committee.
